The district has a Board-approved Comprehensive School Improvement Plan (CSIP) guided by the mission statement and based upon the district's core values. This plan serves as the district's foundation for allocating resources, developing policies and procedures, selecting and implementing instructional programs designed to raise student achievement, and improving organizational outcomes.

The CSIP was developed through the combined efforts of Board members, staff, administrators, students, parents/guardians, and community members and is ongoing. Goals and objectives are provided in sufficient detail to direct the improvement efforts of the district for at least a five-year period. The CSIP is evaluated and updated as necessary.

A copy of the district's CSIP is available in the Superintendent's office and on the district's website.
