Title: Evaluation of District Programs
Number: IM - Basic
Adopted: May 8, 2014
Revised: January 21, 2021

The Park Hill Board of Education directs the Superintendent to implement appropriate methods for a continual evaluation of the curriculum, the educational programs and the instructional processes of the school district.

These evaluations will assess educational needs, provide information for planning in the district, indicate instructional strengths and weaknesses in the district's educational programs, assure that the district is complying with the legal requirements for state-funded and federally funded programs, and provide data for public information.

The Board will rely on its professional staff and/or outside agencies to provide continual evaluation of the educational programs and instructional processes of the district. Specific measures will be identified to determine program success. The Superintendent or designee will periodically review appropriate research studies to determine recent trends and developments in instructional evaluative techniques.

The Superintendent will prepare and maintain written reports about the educational programs and instructional processes of the district and provide copies to the Board upon request and as necessary to carry out the Board evaluations required by this policy. The reports will include the goals and objectives of each program, progress toward meeting those goals and objectives, an explanation of the data and information used to determine program effectiveness, and recommendations for continued or improved effectiveness.

Unless otherwise required by law or Board policy specific to a particular program, the Board will review each district program in accordance with the annual program evaluation plan approved by the Board. The Board may review any program at any time and is not restricted to the schedule or programs in this policy or the program evaluation plan.

Curriculum will be reviewed following the scheduled curriculum reviews by staff.
